Simply Personnel 12.9.1
Release Notes

GDPR Updates

- Updated Privacy Policy URL throughout Self-Service
- Improved Employee Details and Applicant Details report to cater for a SAR (subject access request) made by an employee
- Redacting/deleting an employee from Personnel Module and Recruitment module – users have the ability to redact an employee/applicant from the system, in line with GDPR when an SAR is raised and the user requests to be forgotten. (Deletion clears email addresses throughout the system and email logs)

General

- Attendance Record in Personnel Manager re-engineered for improved performance and flexibility
- Added multi select box for absence categories in self-service / moved absence settings under the general section
- Increased character length for text boxes when using Performance Profiles
